

Kendall Bamboo

Why Bamboo...

Everyone is trying to do their part to save the environment for future generations by using eco friendly products that are sustainable. A bamboo hardwood floor has many "green" properties that make it the perfect choice for any home trying to help conserve the Earth's resources.

1. Bamboo grows throughout the world in a wide range of environments. It's growth rate can reach up to one inch an hour in a 24 hour period. In the time it takes for a forest of hardwood trees to reach maturity, bamboo can be harvested twenty to thirty times.
2. Bamboo can be harvested without the need to replant, as bamboo will regenerate annually. The root structure, has the ability to hold soil in place, preventing erosion.
3. Less pressure on ecosystems through the reduction of hardwood forest harvesting.
4. Bamboo is a viable replacement for wood. It is one of the strongest building materials, with a tensile strength that rivals steel.
5. There is no waste during the manufacturing process. Any bamboo that is left over after cutting planks, can be recycled into the next batch of bamboo that is processed into flooring.
6. LEED® V3 Credits:
 - LEED® Mr Credit 6: Rapidly Renewable Materials - 1 Credit
 - LEED® IEQ Credit 4.3: Low-Emitting Flooring Systems - 1 Credit

SPECIFICATIONS:

STRUCTURAL WARRANTY: LIFETIME

FINISH WARRANTY (Residential): 25 YEAR

FINISH WARRANTY (Light Commercial): 5 YEAR

THICKNESS: 1/2" - 9 PLY CONSTRUCTION - 2MM FACE

PROFILE: 4-SIDED MICRO BEVEL

INSTALLATION: GLUE , NAIL, STAPLE or FLOAT

APPLICATION:

ON GRADE	ABOVE GRADE	BELOW GRADE
X	X	X

KENDALL BAMBOO COLORS: 5"

70B91F	Bamboo (V)	Natural
70Z91F	Bamboo (V)	Carbonized
70E91F	Bamboo (H)	Natural
70H91F	Bamboo (H)	Carbonized

IMPORTANT INFORMATION ABOUT HARDWOOD FLOORS

Inspect ALL materials carefully BEFORE installation. Wood is a natural product containing natural characteristics such as variations in color, tone and graining. Some variation in color is to be expected in a natural wood floor. It is the customer and installer's responsibility for final inspection prior to installation. The warranty DOES NOT cover materials with visible defects once they are installed. The manufacturer - retailer will not be responsible for claims arising from flooring that has a greater range of grain / color variation than found in the showroom display samples.
